**About China GrenTech**

China GrenTech is a leading developer of radio frequency (“RF”) technology in China and a leading provider of wireless coverage products and services in China. The Company uses RF technology to design and manufacture wireless coverage products, which enable telecommunication operators to

expand the reach of their wireless communication networks to indoor and outdoor areas, such as buildings, highways, railways, tunnels and remote regions. China GrenTech's wireless coverage services include design, installation and project warranty services. The Company also tailors the design and configuration of its wireless coverage products to the specific requirements of its customers.

Based on its in-house RF technology platform, the Company also develops and produces base station RF parts and components sold to base station manufacturers. China GrenTech is a qualified supplier of RF parts and components to six major base station manufacturers including Huawei Technologies and ZTE Corporation.
